

# DEFIBRILLATOR Mounts

## *Increase the safety of your crews and your patients during transport*

An unsecured defibrillator can become a dangerous projectile in an ambulance compartment, resulting in severe injury, or even death, to those inside.

**Avoid unnecessary risk** with a Ferno Defibrillator Mount.

Each Ferno Defibrillator Mount is easily installed onto a countertop or bench

A quick release mechanism allows easy locking and unlocking of a defibrillator for grab-and-go convenience on scene

Each Ferno Defibrillator Mount features a swivel base for easy positioning and viewing of the monitor screen during patient care

Ferno Defibrillator Mounts accommodate the defibrillator and soft storage accessories

## **P-300** DEFIBRILLATOR MOUNT

for **Philips®** Medical Systems HeartStart MRx

# DEFIBRILLATOR Mounts

## ***“help ensure the safety of staff & patients”***

*“After the tragic loss of a medic in a neighboring jurisdiction, we made the decision that every item of portable equipment would be placed into cabinets or secured in a mounting bracket. We have found the P-300 mount to meet our needs. They are highly durable and the ease of use is fantastic for our medics. Every ambulance director should mandate the use of permanent mounts for all durable equipment to help ensure the safety of their staff and the patients who ride with them.”*

*Robert Hawley  
LeFlore County (Oklahoma)*

## **Z-102 DEFIBRILLATOR MOUNT**

for Zoll® M Series with Extreme Pack II & NIBP *includes mounting plate*

## **Z-103 DEFIBRILLATOR MOUNT**

for Zoll® E Series with Soft or Hard Case *includes mounting plates*

## ***“It is a great product.”***

*“...The mounts are working out great. The feedback I have received from our crews is all positive. The monitors release quickly and with ease. The swivel action makes it easy to see the monitor from any position in the back of the ambulance and holds it in that position. It is a great product.”*

*Lt. Jim Morse  
EMS Coordinator*
