

EasyFix PLUS vacuum mattress

Our brand new Vacuum Mattress EasyFix PLUS is made of flame-resistant PVC coated fabric. Improved inner bags with compartments for control of the granules, which means that it always has an even distribution of the content for a comfortable and stable immobilization.

EasyFix PLUS has a unique design that provides increased support of head, neck and back without use of cervical collar on the patient while packing volume has shrunk by 20% and weight by 20% compared to most traditional designs. The top side of EasyFix PLUS has a reinforced base that covers the cervical spine, head, neck and upper back.. A unique wrapper function together with fixing straps gives a much better support than traditional systems. The development of this system is based on the X-spider functions where it is proven that the crossfixation provides clear benefits with regards to the immobilization and comfort for the patient.
